

**What is my7N?**

As part of the 7N community, you will have your own personal profile on my7N.

On my7N, you will have access to all the latest and most relevant information about what is going on within your local and global 7N communities. As you already know, we host several professional and social events for the 7N community throughout the year, and on my7N you will be able to keep track of all the events and access the sign-up details. You will be notified on the my7N timeline when new events are announced.

Furthermore, your personal 7N agent will ask you to update your CV on my7N to ensure a good match between you and your coming assignment. You will be able to create multiple CVs on my7N and share them with your agent. For example, if you wish to have your CV in more than one language, if you want to target specific companies or industries, or if you want to display specific competencies for different roles. You will, of course, be able to update your CVs whenever you feel like it.

On your *Personal Details* page on my7N, you can change your personal information and settings such as email, phone number, business details, notifications, and preferred work locations. Furthermore, you can manage your subscriptions to newsletters, event invitations, and whether your professional profile may be displayed on the 7N homepage and used in marketing material.

On my7N, you can also find our *Referral Program*, which allows you to invite people from your professional network to join you as a 7N consultant. You will, of course, be rewarded if you are able to refer another top 3% IT professional who gets to work on a challenging assignment with one of our many international clients. During the referral process, you will be able to track the status of your referred candidate.

Furthermore, you will find a lot of material related to professional development, such as links to courses, webinar recordings, articles, and much more.

Your 7N agent will provide you with your login credentials.

7N A/S is a global, elite IT consultancy and agency with 30 years market experience in serving all aspects of critical IT projects both within the public and private sector.

We have dedicated ourselves to finding the right match between our consultants and the companies we serve – we believe that is how the best results are created. At 7N, we have built a professional community of extraordinary people. A community dedicated to achieving professional and personal development. A place where the best gets to play with the best.
